Welcome to the Bio-Strategy Brand Index. Here you will find the key brands and products available in Australia. Bio-Strategy offers a comprehensive range of products for your laboratory research, analysis and production. Our portfolio includes technical instrumentation, high quality laboratory equipment, consumables, chemicals and reagents & assays for many applications.

Bio-Strategy was founded in 2003 and is an established locally-owned ISO 9001:2015 accredited distributor delivering technology to the Scientific Community throughout Australasia. The Bio-Strategy team shares a passion for science and, in partnership with world leading suppliers, we provide our customers solutions to advance their research and work.

From our extensive product range we provide quality technology to customers in numerous market sectors including: Diagnostic Laboratories, Academic Research, Government Institutes, Applied Testing and Industry. Our specialists can tailor solutions to fit your research and business needs.

Bio-Strategy's head office is located in Melbourne with local teams throughout the country. Our skilled application scientists, sales specialists, service engineers, and our entire team of more than 130 staff across Australasia are available to support you and your laboratory requirements.

John Chesterfield
Chief Executive Officer
Bio-Strategy

Hamilton Robotics - Discover the Hamilton Advantage

PIPETTING EVOLUTION. LOGISTIC REVOLUTION. INTEGRATED SOLUTION.

AUTOMATED NGS SOLUTIONS
Increase workflow efficiency and data integrity through Hamilton's NGS Automation.

- Hands-free post-PCR processing
- End-to-end sample tracking
- Up to 96 samples per day

HAMILTON®

**Hamilton
Nimbus HD**

Microlab® VANTAGE
Liquid Handling System™

The modular design to optimise storage, device integration, and transport space without sacrificing deck space.

How Are You Storing Your Samples?

We provide sample management solutions.

**Hamilton
BiOS®**

SAM HD

Verso®

**LabElite®
DeCapper**

**LabElite®
I.D. Reader**

HAMILTON®
STORAGE

HAMILTON®

The Measure of Excellence

Hamilton Company products provide you with unmatched accuracy and precision in your everyday laboratory tasks and workflows.

- The most comprehensive selection of syringes and needles
- A complete selection of silica and polymer based HPLC columns
- Automated intelligent diluting and dispensing with the Microlab 600 series
- Robust and intelligent in-line process sensors for pH, ORP, Dissolved Oxygen and Conductivity

A Thermo Fisher Scientific Brand

One Lambda: HLA antibody screening and DNA typing reagents & kits. As a brand of Thermo Fisher Scientific, One Lambda is committed to provide the most consistent and reliable reagents. The driving force behind One Lambda's product development and educational programs is facilitating a new standard of care in transplant monitoring.

LinkSeq™ Typing Kits

Fast and Easy Real-time PCR Genotyping

JASCO is a global leader in a wide range of innovative technologies using optical spectroscopy and chromatography.

Spectroscopy

JASCO delivers an impressive range of optical spectroscopy instrumentation.

They are compact in design, robust in operation and range from entry-level models to extremely sensitive research-grade instruments.

Chromatography

High Performance Liquid Chromatography EXTREMA 4500 Models is a conventional HPLC that aggregates the technology cultivated with EXTREMA 4000 Models into a compact casing with a width of only 15cm.

Next generation chromatography configurations have arrived.

Bio-Strategy is the exclusive distributor for EpreDia in Australia and New Zealand. EpreDia is a Global Leader in Precision Cancer Diagnostics and Tissue Diagnostics offering the highest quality products to enable our customers to achieve diagnostic excellence.

- **Instruments:** Cryostats, Microtomes, Slide & Cassette Printers, Tissue Processors, Embedding Centres, Stainers, Coverslipers, and Cyto centrifuges
- **Consumables:** Slides (Superfrost and Superfrost Plus), Coverslips, Blades (MX35 Ultra), Cassettes, Cytofunnels and many others

POWERED BY

SHANDON

MICROM

MENZEL-GLÄSER

Richard-Allan Scientific

nanoString®

Hybridisation-based assays for direct molecule counting

For expression profiling of tens to thousands of targets simultaneously with robust, digital precision. New GeoMX Digital Spatial Profiling can now count molecules directly from a slide-mounted tissue surface.

● RNA ● miRNA ● protein

Advancing Discovery in Protein and Cell Biology

- Over 24 plate readers available – single to multi-mode plate readers
- High through-put fluorescence analysis systems
- Washers configured for 96- and 384-well plates, with user-changeable wash heads
- Assay kits for life science research, bioassays, drug discovery and development
- Solutions for cellular imaging from simple automated cell imaging to high content imaging with custom detection modes for any application
- Clone screening systems
- Mammalian and microbial colony picking

*Let our technology
power your discoveries*

- **MESO SCALE DISCOVERY®** biomarker assays have high sensitivity, excellent reproducibility, and a wide dynamic range.
- **MULTI-ARRAY®** technology enables researchers to profile many biomarkers simultaneously in a single sample.
- Offering over 600 immunoassays for a range of applications including immunology, inflammation, oncology, neurobiology, and toxicology in various assay formats.

Priorclave

Priorclave: Autoclaves, steam sterilisers and accessories.

- All British design
- More than 60 autoclave models
- From 40 to 700 litre chamber capacities
- Manufactured in Priorclave's London facility to UK standards
- Extensive range of options enables tailoring to meet your specific requirements
- Proven energy savings
- 10 year chamber warranty

Gerhardt Analytical Systems for Nitrogen/ Protein, Fat and Fibre Testing

The world leader in automatic Digestion, Distillation, Hydrolysis, Fat and Fibre Extraction.

Product Highlights:

- Dumatherm N Pro - Nitrogen / Protein Analysis According to Dumas
- Kjeldatherm, Turbotherm and Vacuog - Best in Class Kjeldahl Digestion Solutions
- Vapodest - Best in Class Kjeldahl Distillation Systems
- Fibretherm - Advanced Fibre Analysis
- Hydrotherm and Soxtherm - Unrivalled Total Fat Solution
- Thermo - Classic Apparatus and Serial Heaters

Gerhardt
Analytical Systems

heidolph
research made easy

- Leading safety standards
- Superior ease of use
- Reduced cost of ownership
- Made in Germany

Multi-stage quality checks in development and production

3-year warranty on all devices and an average operational lifespan of 10 years

Premium service according to the "research made easy" principle

Heidolph is a leading manufacturer of laboratory equipment including Rotary Evaporators, Hotplate Magnetic Stirrers, Overhead Stirrers, Shakers and Mixers.

Cytiva: Provide protein purification chromatography with ÄKTA systems & columns, resins for FPLC, Western Blotting reagents, membranes & imaging systems, Biacore consumables, Nucleic acid purification & amplification in the illustra range, Percoll & Ficoll cell density media and Whatman filtration products.

CORNING

Corning: High quality and innovative life science plasticware for cell culture, genomics, microbiology, liquid handling & filtration, CoolCell product range, laboratory equipment and Pyrex® laboratory glassware.

Falcon - A Corning Brand:

Life Science plasticware for tissue culture, genomics, microbiology and liquid handling.

FALCON®
A Corning Brand

PALL are a large global supplier of membranes and filtration solutions. PALL offers superior filtration, separation and detection products in a wide range of Laboratory Segments including:

- DNA and RNA Purification
- Protein Sample Prep and Detection
- Sterile Filtration and Clarification
- Tangential Flow Filtration
- Venting and Gas Filtration
- Laboratory Water Purification

Life Science Innovator Since 1966

CO₂ Incubators

Pharmaceutical Refrigerators

Biomedical Freezers

Ultra Low Temperature Freezers

Ansell

Experience a **HIGHER LEVEL** of
PROTECTION

Globally trusted gloves for life science, industrial research and clean rooms (PPE), Ansell Microflex and Touch N Tuff premium quality laboratory and examination gloves (PPE).

DWK Life Sciences: Leaders in the manufacture and supply of glass and plastic labware, cell culture apparatus and consumables, with brands like Duran®, Pyrex® and KIMBLE® dating back over 100 years providing solutions for Scientific Research, Pharmaceutical, Healthcare, Environmental and Industry applications.

- **DURAN®** Borosilicate 3.3 Glassware
- **WHEATON®** Cell Culture & Chromatography Solutions
- **KIMBLE® KIMAX® KONTES®** Glassware
- **PYREX®** Laboratory Glassware
- **QUICKFIT®** Ground-Glass Jointed Glassware
- **MBL® Volumetric Glassware**
- **SVL®** Screwthread Jointed Glassware
- **AZLON®** Reusable Plasticware

Rad Source: X-ray irradiators designed for blood, small animals, insects, food and cells.

GESIM

Integrating the Worlds of Micro and Macro Technology

BioScaffolder: 3D Printing of Biomaterials
Microcontact Printers: fabrication of 3D micro and nano structures by Nano-Imprint Lithography

GeSiM: Printing and fabrication of structures for bioengineering research applications.

CRYOXTRACT

Cryoextract: Benchtop frozen sample aliquotter. Experience the benefits of frozen aliquotting in Bioanalysis, Microbiome, Molecular Pathology and Biobanking QA/QC applications.

eppendorf

Eppendorf: Liquid handling tips, microplates, tubes, cuvettes, pipettors, titrators, dispensers, micro centrifuges, multi purpose centrifuges and thermomixers.

TOMY

Tomy: Mobile toploading autoclaves. Providing high quality instruments across various industry segments, including biotechnology, biological engineering, medical science and food development.

BINDER

Best conditions for your success

Binder: The world's largest manufacturer of serial-production environmental simulation chambers for scientific or industrial laboratories.

analytikjena

An Endress+Hauser Company

Analytik Jena: Real-time PCR and gradient thermal cyclers, spectrophotometers, bio-imaging systems, macro and micro in-vivo live animal imaging systems, UV Products (transilluminators, lamps, crosslinkers and incubators), hybridisation ovens and PCR workstations.

grant

Grant: Unstirred and stirred water baths, dry block heaters, shaking and ultrasonic baths, refrigerated circulators and vortex mixers.

Fully Automated, High-Through Put Tip Washers

TipNovusMini™

TipNovus™

Grenova: Grenova produce benchtop, robotic-arm friendly, high-throughput automated pipette tip washer which has endless possibilities for developing a reuse process. TipNovus™ and the TipNovus-Mini enables labs to re-use plastic pipette tips numerous times.

Proud manufacturers of EZ BioPacs®, PowderFlo and DoverPac® range.

ILC Dover: Advanced containment options to assist manufacturing biologics faster. Process containment, anti-static films, flexible enclosures & isolators, and single use powder transfer packs.

Hach: Water analysis test kits, spectrophotometers, pH meters, turbidity meters, dissolved oxygen, BOD, COD kits and apparatus.

Sherwood: Flame photometers, chloride analysers, magnetic susceptibility balances, colorimeters and fluid bed dryers.

Miele Professional: Laboratory glassware washers and disinfectors. Miele's range of instrumentation is designed to easily withstand the rigours of repeated cleaning whilst ensuring consistent results day after day.

Brady: Laboratory identification, safety labels and label printers.

Mettler Toledo: Analytical/top pan/moisture balances, pH/conductivity/DO meters, refractometers, densitometers, titrators, pipettes, dispensers and Rainin High precision liquid handling.

Reichert: Benchtop and digital handheld refractometers, optical handheld refractometers, bilirubinometers, veterinary and clinical handheld refractometers & refractometer calibration oils.

Megazyme: A global leader in assay kits, reagents and enzymes, offering high-purity, ultra-stable products used in analytical testing across a range of industries - from cereals and food manufacturing, to biofuel and animal feed, to wine, beer and dairy products.

Bethyl: ELISA kits, primary polyclonal antibodies, blocking peptides, affinity purified secondary antibodies and reference serum.

The Power to Question

Santa Cruz: Offer a huge range of Monoclonal antibodies and mouse binding proteins, CRISPR & Biochemicals. Many of the mammalian antibodies are reactive with equine, bovine, canine, feline, caprine, porcine and bovine proteins.

Answers in Life Science

SVAR: Assays measuring human complement, auto-immune markers and hormone analytes (Euro Diagnostica have changed their name to Svar Life Science AB).

IKA®

IKA: Magnetic stirrers, hotplates, vortex mixers, orbital shakers, grinding mills, dispersers/homogenisers, bomb calorimeters, rotary evaporators and viscometers.

chem-supply

Chem-Supply: Chemical products and laboratory supplies with direct shipments to your laboratory to reduce product delivery time, great stock levels and full technical support.

LabAdvantage: Pipette tips, barrier tips, PCR tubes, PCR plates, reservoirs and microcentrifuge tubes.

Techno Plas: Plastic consumables for life science, pathology, food & beverage, industrial, mining and environmental applications.

bio-strategy
delivering technology

Protect Your Investment!

Support available every step of the way with Field Service Engineers and Application Scientists

Improve your lab productivity and accelerate your research.

Here at Bio-Strategy we pride ourselves in providing:

Country-Wide Coverage | Factory Trained Engineers and Scientists | Original Spare Parts

FIELD SERVICE SUPPORT

Installation | Compliance | Maintenance

Get the most return for your investment

The condition, life span and accuracy of instruments is critical for the most essential tasks in the laboratory.

Bio-Strategy's Technical Service is designed to help keep your lab instruments precisely up and running which gives you peace of mind.

Peace of mind

We do this by offering complete service solutions from installation, after sales service and compliance to the supply of original spare parts.

Our large team of factory-trained engineers covers all regions of New Zealand.

Certifications

- ISO-9001:2015 Certified
- IQ/OQ

Service Agreements*

- Tailored to customer's needs on a wide range of supported equipment
- Comprehensive Agreements covering service and parts
- Standard Agreements including scheduled Preventative Maintenance services and up to 10% off parts and breakdown labour
- Advanced scheduling of Preventative Maintenance

*initial checks on equipment out of warranty may be chargeable

Remote Support

- In-house engineer for phone support
- Remote support diagnostic capabilities
