

## PHCbi MCO-50 50L CO<sub>2</sub> and Multigas Incubators

### New and Improved

#### Personalised PHCbi 50L CO<sub>2</sub> and Multigas Incubators

Compact and stackable these incubators are ideal for individual cell cultures from patient samples or small scale research projects.

During cell culturing, the inCu-saFe germicidal interior and optional UV lamp work continuously to prevent contamination.

- UV sterilised airflow and humidity pan (>5000 hrs of operation – No HEPA replacement!)
- Now with optional industry fastest H<sub>2</sub>O<sub>2</sub> decontamination process
- Easier to clean features
- Improved display
- Precise control and Intelligent monitoring
- Datalogging across temperature and errors/faults now available!

For a limited time, order the new MCO-50 and receive a FREE SafeCell UV Upgrade (valued at \$795).

#### What does this mean for you?

No hassle and ongoing costs to replace HEPA filter! Our UV lamp is rated to 5,000 hours of operation – that's approximately up to 7.5 years of normal use\*!

*\* 10 door open/close across 12 hours during the day, no open/close at night for 12 hours.*
