

Corning® Lambda™ EliteTouch™ Pipettors

Effortless pipetting and reliable results.

Corning Lambda EliteTouch pipettors have been engineered to provide the highest levels of comfort, accuracy, and precision.

The lightweight construction, contoured handle, and 4-digit counter were designed to ensure comfortable pipetting. All pipettors feature smooth plunger movement and extremely low pipetting forces to reduce wrist strain and fatigue (RSI).

Coloured push-buttons (included) can help identify a user or application for sample safety and lower risk of cross-contamination.

- Ergonomic handle design is a perfect fit for both the right and left hand
- Convenient one-hand volume setting with auto-lock system prevents accidental volume change during work
- 4-digit counter provides greater precision and is perfectly positioned for visibility at all times
- Single-channel pipettors are compatible with very narrow tubes
- Fully autoclavable and UV-resistant for sample protection against contaminations
- The multi-channel shafts retract individually for perfect tip loading and easier tip ejection
- Unique ejector lever system enables effortless tip ejection
- Easy in-lab calibration helps you quickly adjust your pipettor to various liquid types
- Individually tested and supplied with a certificate of quality
