

## Eppendorf 5702 Centrifuge

### Spin into Winter with this saving!

The 5702 family of low speed, general purpose centrifuges was especially designed to meet the requirement of low- to mid-throughput clinical research and cell culture laboratories. They are compact in design so that one can fit comfortably on every lab bench, quiet in operation to benefit your work environment, and provide 6 different centrifuge rotor options to accommodate any type of tube.

Contact your local Bio-Strategy Sales Representative to configure the right rotor for you.
