

## Keep Warm and Bind with Santa Cruz Antibodies this Winter!

**Buy 2 or more Antibodies at the one time  
and receive additional discounts.**

- Buy 2 and receive 5% off list price
- Buy 5 or more and receive 10% off list price

**Buy More,  
Save More**

Santa Cruz offers a huge range of Monoclonal antibodies and mouse binding proteins, CRISPR & Biochemicals. Many of the mammalian antibodies are reactive with equine, bovine, canine, feline, caprine, porcine and bovine proteins.

### ImmunoCruz® Antibody Conjugates

Santa Cruz Biotechnology (SCBT) is the #1 source of Primary Antibody Conjugates. Over 8,300 monoclonal primary antibodies available in 10 popular conjugate forms for direct detection and use, eliminating the need for secondary reagents. Directly conjugated antibodies are accurate and reliable research tools for a broad range of applications. Our NEW Alexa Fluor® Direct Conjugates allow for simultaneous detection of multiple target proteins in one experiment, producing signals with better dynamic range and more stability than conventional enzymatic detection methods.

### Isotype Specific Mouse IgG Binding Proteins

Santa Cruz offers conjugated anti-mouse IgG binding proteins for use in WB, IF, IHC and FCM applications, representing a substantial improvement over conventional polyclonal secondary antibodies for these applications. Mouse IgG binding proteins bind to either IgG Fc region, IgG1, IgG2a, IgG2b, IgG3, IgGk or IgGλ immunoglobulins.
