

Pharmaceutical Refrigerators / Freezers

Natural Hydrocarbon Refrigerants For Lower Running Cost & Energy Consumption

165L Pharmaceutical Refrigerator

Only \$2,743

Usually \$4,220

Code: SANYMPR-S150H-PE

MPR-S150H Pharmaceutical Refrigerators offer a complete solution for the most demanding requirements for storage of pharmaceuticals, medicines, vaccines, and other temperature-sensitive applications.

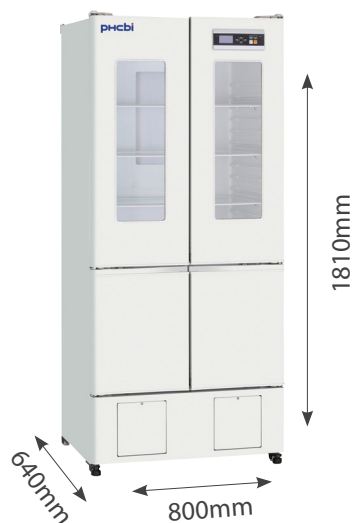

- New OLED display with onboard temperature and alarm logging
- Superior temperature performance
- Space-saving sliding door design
- Temperature: +2°C to +14°C
- LED interior light

Pharmaceutical Refrigerator with Freezer

Only \$4,930

Usually \$7,585

Code: SANYMPR-N450FSH-PE

Temperatures remain stable wherever products are stored, even in a fully loaded chamber.

The refrigerator is engineered to prevent inadvertent freezing of temperature sensitive vaccines.

A uniform freezer temperature is maintained through a cold wall refrigeration system with natural circulation.

Effective capacity: Refrigerator 326L / Freezer 136L

Temperature range: Refrigerator 2°C to 14°C / Freezer -20°C to -30°C

Prices and discounts may be subject to change and only available while stocks last. Not valid with any other special offer or discounts and cannot be applied in retrospect. All prices in local currency excluding GST and local delivery charges. Products advertised may be for research use only (RUO) or in vitro diagnostic use (IVD). Please refer to manufacturer's product insert for further information. For product use outside of that specified on the manufacturer's labelling and/or instructions for use, Bio-Strategy does not take responsibility.
