

NEW Mobifreeze

Discover the world's first mobile ultra low temperature chest freezer

Welcome to the world of professional cooling. Ultra-freezers from LAUDA guarantee safe and reliable deep-freezing.

The mobile ultra low temperature chest freezer with active temperature control ensures that the cold chain is reliably maintained in intralogistics and for inter-factory transport in road logistics.

Thanks to excellent insulating properties, the ultra low temperature chest freezer is the perfect solution for transporting delicate and temperature-sensitive materials.

Many extremely sensitive samples not only have to be stored under validated conditions, but also have to be transported under identical conditions.

This ultra low temperature chest freezer guarantees mobile, low-temperature transport.

Optimum product temperatures
from -50°C to -86°C

High-performance
integrated battery

Dispensing with dry ice

The logistics solution for the transport of temperature-sensitive samples – entirely without dry ice

Dispensing with hazardous dry ice and its requirements (aeration, health protection) not only protects the environment, but also eliminates health risks, as well as the costs incurred when using dry ice.

Provides increased safety to personnel.

Typical fields of application

- Pharmaceutical companies engaged in research and production
- Long-term storage and transport in pharmaceutical environments
- Sample storage and transport in research and development laboratories

Prices and discounts may be subject to change and only available while stocks last. Not valid with any other special offer or discounts and cannot be applied in retrospect. All prices in local currency excluding GST and local delivery charges. Products advertised may be for research use only (RUO) or in vitro diagnostic use (IVD). Please refer to manufacturer's product insert for further information. For product use outside of that specified on the manufacturer's labelling and/or instructions for use, Bio-Strategy does not take responsibility.
