This special pricing won't last!

A faster and easier alternative to gauze filtration in procedures involving dissociation of cells from either clumps or primary tissues. Consistently obtain a more uniform single-cell suspension.

Available in 3 nylon mesh pore sizes for optimal performance in a variety of applications, sterilised and individually packed for convenience. The extended lip enables aseptic handling with forceps.

Ref. Code: CORN-Strainer

Valid Until: 31 Dec 2025
