100 Capsules

Discreet and perfumed autoclave deodorant to freshen up your laboratory space.

Anabac® is used in laboratories where sterilization cycles, destruction of microorganisms, culture media, decontamination of materials are carried out.

- Compatible with any autoclave
- Biodegradable
- Does not impact the autoclave cycle
- Pleasant fragrances to improve the working environment
- Available in Eucalyptus, Apple, Lemon and Peach

Note: Additional ECOCERT-certified natural perfume variants are available in a 50 capsule pot (Coconut, Vanilla & Mimosa). Please reach out for pricing / additional information

Easy to use

During sample sterilization, bad smell can emerge from the autoclave.

Place one capsule in the water at the bottom of the autoclave or in a beaker of water.

After a sterilization cycle, the capsule melts, allowing the perfume to be released.
