

Scilabware Azlon® Magnetic Stirrer and Spin Bars

VALID UNTIL:
30 September 2019

Ref. Code:
AZLO-BARS

Magnetic PTFE Stirrer Bars in a variety of shapes and sizes.

For the stirring of liquids on magnetic stirrers and hot plate stirrers. Strong alloy magnets sheathed in pure white inert PTFE. Supplied in polarity aligned packs to ensure maximum coupling strength. Resistant to virtually all chemical attack and temperatures up to 260°C. The retrievers have a magnet permanently embedded in the PTFE rod and are ideal for retrieving bars from particularly sensitive or corrosive liquids.

Choose the bar that's right for you or an assorted box of the most popular sizes and shapes

- Cylindrical plain with rounded ends, suitable for a wide range of flat-bottomed containers
- Plain similar to cylindrical bars but give greater turbulence at low speed, ideal for use with large vessels
- Oval for efficient stirring in round bottom flasks
- Central pivot ring ensures efficient spinning even on curved or uneven bases
- Octagonal with central pivot ring, the shape gives increased turbulence at low speeds
- Cross head design single or double sided, for efficient stirring in tube-like containers and effective as general stirrers
- Micro for use in small vessels, e.g. test tubes, vials etc.
