

PHCbi Cooled Incubators on Special!

VALID UNTIL:
30 September 2020

Ref. Code:
SANY-MIR

The PHCbi MIR range of Cooled Incubators are recognized as exceptional units suitable for a broad range of applications requiring a -10°C to +60°C environment. The wide variety of temperatures and lighting patterns that are essential in research, environmental studies and testing can now be accurately reproduced and controlled.

- Wide temperature range from -10°C to +60°C with excellent uniformity
- Precise temperature control for accurate, repeatable conditions
- Energy saving operation
- Ultimate secure, comprehensive alarm system
- Modern design for exceptional usability
- Airflow designed to prevent medium from drying out
