

## Corning® Matrigel® Matrix-3D Plates

### Introductory offer!

#### Experience Convenience, Consistency and Certainty.

Corning Matrigel matrix, a natural extracellular matrix (ECM)-based hydrogel, is widely used and referenced in 3D cell culture, in support of organoid and spheroid formation. As 3D cell culture models migrate into a high throughput environment, the need for more convenient, consistent, pre-coated Matrigel matrix options has emerged. Corning is pleased to offer Matrigel matrix-3D plates, a pre-coated, ready-to-use option available in 96-well and 384-well formats. Matrigel matrix is pre-dispensed into each well of these high throughput formats to support successful 3D cell culture. These products enable 'on-top/sandwich' and 'embedded' workflows to generate 3D cell cultures.

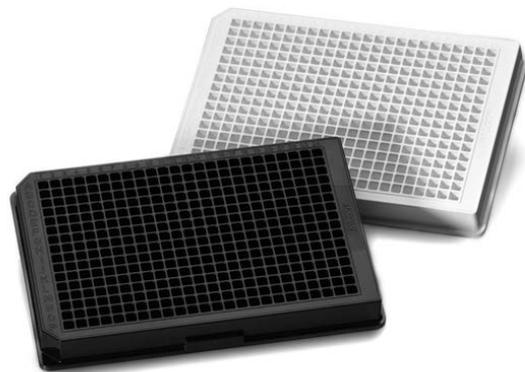

Description	Code
Matrigel Matrix-3D Plates, 384-Well Black/Clear Bottom Plate [5 Items]	BDAA356256
Matrigel Matrix-3D Plates, 384-Well White/Clear Bottom Plate [5 Items]	BDAA356257
Matrigel Matrix-3D Plates, 384-Well White/Clear Bottom Plate [1 Item]	BDAA356258
Matrigel Matrix-3D Plates, 96-Well Black/Clear Bottom Plate [1 Item]	BDAA356259

1. This promotion is only valid to the following countries: Australia, New Zealand, Republic of Korea, Singapore and Thailand.
2. Offer is valid for qualifying orders received no later than 31 Mar, 2021, or when promotional supplies have depleted, whichever comes first. Offer applies to list price in effect at the time order is received.
3. This promotion cannot be combined with other discounts and/ or promotions.
4. You will be presented with a promotional code upon completion of the online sign-up form. To enjoy the 50% OFF Corning Matrigel Matrix 3D-Plates, please quote the promo code and item number when ordering with our authorised Corning dealers.
5. Selected customers will receive a product experience survey from 31 Dec, 2020. Upon completion of survey, the customer will be entitled to a Corning bear or Corning arm bag as a token of our appreciation.
