

## Advance your 3D Biology Research

**Break through new dimensions in 3D cell culture imaging and analysis with Molecular Devices high performance customised imaging and analysis platforms.**

**Contact  
Us Today!**

### High-performance customisations

- Water immersion objectives
- 5- and 8- channel high intensity lasers
- Deep tissue penetrating, confocal disk module
- Turnkey high- throughput, long-term kinetics
- Real-time dose response pipettor
